Robotic Automation Process (RPA)

Session 1 & 2

- Introduction of RPA
- What and why RPA
- RPA Tools
- **UiPath Building blocks**
- Introduction
- Installation and activation
- Different types of workflows
- Creating-a-basic-workflow
- Debugging
- Managing packages
- Installing-the-extension-for-UiPath-studio
- Source control
- Workflow
- Sequences
- Flowcharts
- State Machines
- Control Flows
- Activity - Overview
- Managing-variables
- Naming-best-practices
- The-variables-panel
- Variable & Argument Overview

Excel and Data Tables
- Data Manipulations
- Excel Automation
- Data tables

Recording
- Recording Introduction
- Recording Types
- Automatic Recording
- Manual Recording

Image and Text Automation
- About-image-and-text-automation
- Mouse-and-keyboard-activities
- Guides/text-activities
- Guides/ocr-activities
- Image-activities
- Mouse-and-keyboard-automation
- Text-automation
- OCR-and-image-automation

Mail Automation
PDF Automation
Exception and Debugging
- Exception Handling
- Logging
- Debugging

UiPath Orchestrator
- Orchestrator Overview
- Orchestrator Queue
- Orchestrator Asset

Project
- Deploying Project
- Managing Project
- Monitoring Project
- Scheduling Project
